itersi e kom transin eon. [Currespondence of the Whig & Courier.] WASHINGTON, Dec. 21, 1838.

Tais morning, in the House, Mr. Cushing rost and naved an amendment of the Journal of year. terdeple procedings an ar to show that he had formally protested against the rule (under the Alterion regulations,) by which a polition which he presented, was laid on the lable without reading or reletence.

Mr. Dro-goole denounced this as a device to gel upon the journal this protest, as a part of this present motion, which could not otherwise appearance. Dich the abstythe exched bir the subject, and " talked daggers "

Mr. Cushing chemed to be undismayed however gaid that he only laid claim to a right, nonder the neages of the House, for all-time, and invioled on his motion.

Mr. Howard callicided with Dronigoole, and said that to-morrow a motion might be made to strike from the fournal the record of this motion, which he hoped would be done.

Mr. Adams said that all this would not effect the design to smother this record. For, if the motion were to be to-morrow made, which Howand had indicated, it ... ould recite what was stricken out, and still the matter would appear on the journal. It was a bad business, at first, and the only to be sustained by more and business, if at all. He was happy to say, however, that it wer entirely impossible to do it, in this case, and in the monner proposed.

... Mr. Wisc must go with the gentleman from Massachusetts, if this were to assume the form of a proposition to "expunye" the journal of that House He did not believe there could be found in that body a man who would, (as had been done in another place,) aspire to the house of making such a proposition, or who would carry to the Executive, the pen that should have done it, as a trophy. At all events, he hoped no more time would be spent in this debate, as he had a half finished speech on another subject, which has wished to get at. The would therefore move the previous question.

It was seconded, and the main question was ordered, and the motion of Mr Cushing was lost, 14 în 174. 🛶

Reports of Committees were next in order. The Committee on Elections made a Report fuvorable to the claim of Judge Dety, to a seat as dele ale from Wisconsin, now held by Gen. Jones Roth these persons are friends of the administration. This report was made the special order for next Thursday.

The Committee on Roads and Canala reported a bill which has twice passed the House, granting the Alexandria and Fulmouth Rail In a Co. per tiexion to extend their road to this city. The Bill, (after a little factious, but truitless - seition from that peut, Petriken.) was orde. d to b. engregard.

The C- Hoes having reported, Mr Wise took the floor, and went on with his speech upon the Swarthout agair, and the the government in general, ...

Mr. Guibnet K ved an amentiment to Cambrileng's melion to refer to a select Committee. This amend-ent proposes that the enquiry go to the Price Cefalcation, also, and any others that

- VP-factif to inno-' T tigate" and that this select committee be chosen by ballet.

Mr Cambreleng said he would accept all that, as a shocification of his motion, excepting the " by tribet in part-

Mr. Wie went on. He began with Gen. Jackson's retiring mediage, in which he was so laudatory upon the different Executive Departmente, we must vigilant and efficient, in all their branches. He then .. ent on to show when the enors our abures, now in such tapid progress of discharge rat and exposure, actually commenced, that if the very time when that Message was panned, this very New York Collector, Swortwood, (as now fully appears,) was a defaulter to the ture of over \$300,000! Fquallyenor-ens shuses, it now also seems, were well known then to exist in the Jand offices, and yet, ... ken fie (Wies.) set on fast an investigatick into phase above a, he had been used by the flat refusal of the Executive, himself, and Jus heads of departments, when he had gone to their departments, for the information he was empowered by the bod to apply his and to 111 A W. That had We in Applied what man is, by time_disclosed, as to the real state of theat departments!

THE QUESTION-OF RIGHT SETTLED. The wantiles appointed bytthe Sengte beingente. gate the right of Mr. Hanna to his seat in the Seate, have alrealy obtained sufficient evidence to show that the return of the Loca knew judges, on which the Loce-Focie from Philadelphia farre, and the leading rebel in the outrages and xcitement against the Legislature. - On Baturday last, THIS MAN, their own

withers, on cross examination, lestified that the return that was signed by the Locoloco judges, by HIM in the POST OFFICE in Philadelphia, on MUNDAY after the election, and not in the State House on Friday, the time and place appointed by law That it was SIGNED in the PUST OFFICE by three of the return judges only ; and by the remaind r in vilies places, must belter be had paid some builds, and hoped to have death their That the related the might retain the balance for the purposes projudgen met in the State House on Friday after the election, and without making out this part of the return in consequence of dispute, AD-JOURNED SINE DIE and that there was no other meeting hald by thom, not any notice giv en for a meeting afterwards. THIS TESTI-MONY of the Loro-Pocost who wilness; 18 CONCLUSIVE ON THIS POINT. It shows he return on which the Locotocos claim their seals to be TOTALLY and ALTOGETHER ELEGAL and VOID. -

M'Cahen also testified that he resigned his situation in the Post Office on THE DAY the rcturn judges met, to make himself a competent return clerk; that he had not litted his bonds. but continued to do the duties, and receive, the

emoloments of his station. Thus ends in "smoke" and derision all the retensions of the Philadelphia county Loco Retained amount of warrants lovos to seats in either branch of the Legislature as returned inembers. Thus ends, indeed, all contest as to right or legality. The facts clearly show that the Democratic members from the county are as clearly entitled to their seats as any members in the Legislature, and that it is aiding and abetting wrong and outrage not to

sustain them in their claims for them. We ask the prople to look at this met for a moment. Here is shown all the ground the rebels have had to denounce the Secretary of the Commonwealth for doing his duty as an officer.

for mobbing and driving the Legislature, for assaulting Mesers. Stevens, Peniose and others. and for calling upon the people to rise up in arms to take blood.

The testimony before the committee will fully show this fact, and fix lesting, disgrace and inlainy upon the rebel-conspirators against the broble and the Legislature.

A list of all those officers who, on the 12th of Oct. 1837, the time designated in the resolution of the House of Representatives, stood on the books of the Treasury, as having neglected to er than in any former year. settle their accounts in season, may be seen, with the amount clis rged to yach, in the printed ieport made on the 15th day of January fast, (doc-informing him of his nomination for the Presiument No. 111) But several of these were not then actualty indebted to the United Statonthough having neglected to adjust their accounts at the Treasury, they came within the express words of the resolution, and consequently were included. Some defaults have occurred, or been discovered since Oct. 1857; but it is not apprehended that any losses will ultimately be austained from them, except in the case of the former Collector of New York. That case has been recently detected, and the defelcations are suprosed to have been continued for many, years, and to have reached a large amount. From their character, they could pethaps have been effectually prevented only by penalties for false returns, a system of cash duties, and personal inspections of immey and vonchers, with punishments for misuas of the public funds, shutler to what was urged in the report from this department on the finances, of September, Tall. ffor the Whig & Courier] BANGOR SACRED MUSIC SOCIETY.

We were exceedingly gratified by accepting an invitation from Col. Hayen, the President, to attend the rehearest of this society, on Saturday evening last. The Bociety are preparing as follows; legiuning on French afreet 102 feet north 60.291 42 to bring out Handel's Oratorio of the Creation on New-Year's eve, at a Concert to be given at the flammond Street Church. - They have en-1,067,475 35 gaged Mr Kunek, as leader of the Orchestra, 164,010 60 and with the aid of Miss Maller on the Piano 783 24 and Organ, Meaura Wellington, Perbes, and others on the violin, and a full band of instrumental music among the number, and with the best musical talent from the different choirs in the city, the Society are prepared boyond any former occasion, to accomplish any effort they may undertake. It is a rich treat-to attend these relieursale. Mr. Kurek possesses in an eminent degree the power of execution, and from his acknowledged command of the whole compass of musical expansion; has the rare talent of leading a choir, and concentrating its entire resources to produce effect.

The Society are now engaged in an effort never but once before this, attempted in this State. Handel's celebrated Orafofio of the Creation was performed by the Portland Sacred Music Society about a year since, to the great delight and satisfaction of the people of Portland.

The Bangor Sacred Music Society have been struggling on a year or two, and have at great expense at length provided themselves with suitable books and instruments, and they certainly deserve much at the hands of our community. Its objects and its efforts cannot be too highly 164,177 64 regarded. The influence of Sacred Music as a 646,754 83 part of religious wership, and the power it possesses to refine and elevate the taste and the character, are too apparent to need any proof. We initial Megister, for 1839, containing a greater quite certain that the Society will meet from quantity of information; and loss of other Alma character are too apparent to need any proof. We the people of our city those marks of favor which it richly deserves.
